Tel. +48 (061) 437 00 00

Current safety data and technical information available at the website.

**Emergency telephone:**

**Date of MSDS preparation:** 28. 05. 2007

**MSDS revision date:** 21.10.2008

**2. HAZARDS IDENTIFICATION**

Pursuant to the regulations in force (see p. 15) the product is classified as hazardous.

**2.1. Physical and chemical hazards:**

- the product does not cause fire hazard
- liberates toxic gases in fire

**2.2. Hazard to health**

- the product is irritant
- The product irritates eyes, respiratory tract and skin.
- The product may cause the occurrence of allergic reaction

**2.3. Hazard to the environment.**

- The product is not classified as hazardous to the environment, however entering large amounts of the product to water may have a negative influence on aquatic organisms.
- All surfactants (detergents) contained in the product meet the requirements concerning biodegradability pursuant to the Regulation (EC) no. 648/2004 of the European Parliament and the Council of Europe of 31st March 2004 on detergents.
- avoid release to the environment.
- refer to special instructions/safety data sheets

**3. COMPOSITION AND INFORMATION ON COMPONENTS**

Product classification and marking was presented pursuant to the Act on chemical substances and preparations dated 11<sup>th</sup> January 2001, on the basis of the data provided by the manufacturer and on the basis of general knowledge on the substances.

**3.1. Hazardous components:**

No.	EC no.(EINECS)	Product name:		
	CAS no.	R phrase	Classification	Contents [%]
	Index no.			
1.	None	Anionic surfactant		
	None	The substance is a polymer. The substance is not included in the list. Classification attributed on the basis of the data provided by the manufacturer.		
	None	<b>R36/38</b>	<b>Xi</b>	<b>1 ÷ 5</b>
2.	225-768-6	nitrilotriacetic acid		
	5064-31-3	The substance is not included in the list. Classification attributed on the basis of the data provided by the manufacturer.		
	None	<b>R22; R36</b>	<b>Xn; Xi</b>	<b>1 ÷ 5</b>
3.	None	polyethoxylated isotridecanol		
	24938-91-8	The substance is a polymer. The substance is not included in the list. Classification attributed on the basis of the data provided by the manufacturer.		
	None	<b>R22; R41</b>	<b>Xn; Xi</b>	<b>1 ÷ 5</b>
4.	205-483-3	Etanoloamina		
	141-43-5			
	603-030-00-8	<b>R20/21/22; R34</b>	<b>C; Xn</b>	<b>1 ÷ 5</b>
5.	203-375-0	citronellol		
	106-22-9	The substance is not included in the list. Classification attributed on the basis of the data provided by the manufacturer.		
	None	<b>R38; R43; R51/53</b>	<b>Xi; N</b>	<b>0,01 ÷ 0,1</b>

The meaning of symbols and contents of R phrases – see page 16.

---

### 3. HAZARDS IDENTIFICATION

---

Pursuant to the regulations in force (see p. 15) the product is classified as hazardous.

#### **3.1. Physical and chemical hazards:**

- highly flammable liquid
- vapours create flammable and explosive mixtures with air
- vapours may float from the source of ignition and return in the form of flame
- heating up, spark or contact with fire may cause ignition
- liberates toxic gases in the conditions of fire

#### **3.2. Hazard to health**

- the product is harmful
- the product may cause lung damage if swallowed
- the product is irritant
- Irritating action on skin:
- vapours may cause drowsiness and dizziness

#### **3.3. Hazard to the environment.**

- the substance is classified as very hazardous to the environment.
  - the product is very toxic to aquatic organisms
  - the product may cause long-term adverse effects in the aquatic environment
  - the product is lighter than water, accumulates on water surface. the product very poorly soluble in water. it creates danger for surface waters spilled in the environment, most of it vaporises. it oxidizes in the air as a result of photochemical reactions. it is not subject to the process of significant bioaccumulation. The product components are not easily biodegradable in water and soil.
  - avoid release to the environment.
  - refer to special instructions/safety data sheets
- 

### 4. FIRST AID MEASURES

---

#### **4.1. General recommendations:**

*If any non-desirable symptoms occur, call the doctor immediately or take injured to hospital, show the product packing, label or MSDS.*

#### **4.2. First aid in case of inhalation exposure:**

- take the injured person to a well ventilated room
- place the injured person in half-lying position, loose clothing, make sure that there are no objects or secretion impeding breathing, in the mouth
- medical attention necessary

#### **4.3. First aid in case of eye contamination:**

- flush contaminated eyes, with eyelids open, with a lot of running water, for 10-15 minutes, avoid strong water jet which may cause the risk of damaging cornea.
- do not use any liquids for rinsing eyes or any ointments before medical consultation.
- in case if the injured person uses contact lenses, remove them
- medical attention necessary

*Notice: Persons exposed to eye contamination should be advised about the necessity and method of immediate washing the eyes.*

#### **4.4. First aid in case of skin contamination:**

- take off dirty clothing
- wash skin exposed to contact with the product, or only suspected to be exposed, with plenty of water with soap
- get medical attention.

#### **4.5. First aid in case of swallowing:**

- rinse mouth with a lot of running water
  - Induce vomiting of the injured person
  - medical attention necessary
- 

### 5. FIRE FIGHTING MEASURES

---

#### **5.1. Fire hazards:**

- the product does not cause fire hazard
- liberates toxic gases in fire

#### **5.2. Recommended extinguishing media:**

- adequate for burning materials in the surroundings
- 

### 6. ACCIDENTAL RELEASE MEASURES

---

**6.1. General advice:**

- in case of releasing large amounts, notify competent services about the accident
- remove all people who do not take part in repairs from danger zone

**6.2. Personal protection:**

- avoid contact with releasing product
- use protective gloves and protective clothing
- Apply tight protective goggles with side cover or an adequate protective mask

**6.3. Environmental precautions:**

- Eliminate spillage (shut off liquid flow, seal, damaged container put in emergency container)
- avoid the contamination of groundwater, protect sink basins
- do not let the product enter the sewage system or draining system
- if the product reached the water or draining system, contaminated the earth or flora, notify competent services

**6.5. Cleaning procedures:**

- small amounts of released product wipe with paper or a cloth, put in a closed, properly marked container
- bigger amounts of released product cover up with inflammable absorbing material (sand, diatomaceous earth, universal binding material), put in a closed, properly marked container
- in case of big spillage, embark the place where the liquid accumulates
- wash the place of spillage after removing the material

---

**7. HANDLING AND STORAGE****7.1. Handling the product:**

- ensure efficient air exchange when working with the substance (general ventilation of the room and local exhaust ventilation)
- Do not inhale the product vapours, avoid direct contact of product with skin and eyes; use adequate personal protection measures
- handle the product pursuant to the general principles of work health and safety concerning chemical substances; strictly follow the proceeding procedures; when handling the product, apply general work health and safety regulations contained in the Regulation of the Minister of Labour and Social Policy dated 11th June 2002 (Dz. U. no. 91 dated 2001, item 811); observe the advice included in the instructions provided by the manufacturer
- do not eat, drink and smoke when handling the product, except for the places designed for this; wash hands before the breaks and after work, if necessary use hand cream
- do not allow for the contamination of skin, eyes and clothing
- avoid long-term and repeated exposure
- work in ventilated rooms

**7.2. Storage:**

- store the product in cool, dry and well ventilated rooms
- store the product in original and tightly closed containers
- optimum storage temperature from 15°C to 25°C
- previously opened containers store vertically to make the leakage of the product impossible
- do not store near food

**7.3. Requirements concerning the room:**

- cool, dry and well ventilated.

**7.4. Package:**

- for safety reasons, it is recommended to store the product in original packages
- Store in tightly closed, adequately marked containers
- protect packages from mechanical damage

---

**8. EXPOSURE CONTROL AND PERSONAL PROTECTION****8.1. Hazard to health**

Employees' medical tests and tests and measurements of harmful substances to be carried out pursuant to the regulations in force.

**8.2. Precautions:**

- Store and use well ventilated room.

**8.3. Personal protection:**

- Thoroughly wash the whole body after work.
- Wash contaminated clothing and footwear before another use

**8.4. Hazard to health**

Pursuant to the regulation of the Minister of Labour and Social Policy dated 29<sup>th</sup> November 2002 (Dz. U. no. 217 item 1833) with the amendment (Dz. U. No. 212 item 1769 dated 2005):

**2-Aminoethanol:** NDS: 3 mg/m<sup>3</sup> NDSCh: 10 mg/m<sup>3</sup>

**8.5. Recommended monitoring procedures:**

# MATERIAL SAFETY DATA SHEET

Preparation date: 2008-10-21

INNER Cleaner

Page 1 out of 11

- PN-89/Z-01001/06. Air purity protection. Names, definitions and units. Terminology concerning air quality tests at work places.
- PN-89/Z-04008/07. Air purity protection. Collecting samples. Principles of collecting air samples in work environment and the interpretation of results.
- 2-aminoethanol – determination method Principles and Methods of Work Environment Assessment 1998, z. 19

## **8.6 Admissible concentrations in biological material:**

Not defined

## **8.7. Hygienic advice:**

Avoid direct contact of the product with skin and eyes and inhaling the product vapours; use the product in the rooms with efficiently working ventilation and, if necessary, use respiratory tract protection measures; immediately take off contaminated clothing and wash contaminated skin with water with soap; do not eat, drink and smoke when handling the product, except for the places designed for this, wash hands before breaks at work and after finishing work with the product, use hand cream when necessary.

When substance concentration is determined and known, personal protection media should be selected with the consideration of the concentration of the substance occurring at a given work station, time of exposure and the activities performed by the employee pursuant to the catalogue "Individual protection media" issued by Central Institute for Labour Protection.

In case of emergency, even if the concentration of the substance at work station is not know, use individual protection media of the highest recommended protection class.

## **8.8. Personal protection ensuring adequate protection:**

hands: Protective gloves made of PVC, neoprene, PVA

skin: protective clothing

respiratory tract: ensure good ventilation.

eyes: protective goggles or mask protecting the face

Notice! Recommended protective equipment must be certified for safety mark pursuant to the Regulation of the Council of Ministers dated 9<sup>th</sup> November 1999 on the list of goods manufactured in Poland as well as goods imported to Poland for the first time, which may cause danger or serving the protection or saving life, health or the environment, being subject to the certification for safety mark and marking with this mark and the goods subject to the obligation of issuing the declaration of conformity by the manufacturer.

The employer is obliged to make sure that the used individual protection media as well as protective clothing and footwear had the protective usable properties and assure their adequate washing, maintenance, repair and decontamination.

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

form, appearance:	liquid
colour:	red
odour:	characteristic
pH	10,8 ÷ 11,2
boiling point:	101°C
melting point:	not determined
burning temperature:	not determined
flash point	>100°C
autoignition temperature:	>250°C
combustibility:	the product is not hazardous
explosive properties:	No danger of explosion
hazard danger boundaries:	
- lower:	-
- upper:	-
oxidizing properties:	none
vapour pressure:	23 mbar
density:	1,05 g/cm <sup>3</sup> (in the temperature of 20°C)
vapour density:	not determined
solubility:	
- in water:	does mix
- in organic solvents:	does not mix
Distribution ratio n- octanol/water	not determined

## **10. STABILITY AND REACTIVITY**

### **10.1. Stability:**

- stable in normal conditions of application and storage

**10.2. Conditions to avoid:**

- high temperature

**10.3. Materials to avoid:**

- acids

**10.4. Hazardous products of decomposition/combustion:-**

- toxic gases and smokes

**11. TOXICOLOGICAL INFORMATION**

**11.1. Hazards to health**

- the product is irritant
- The product irritates eyes, respiratory tract and skin.
- The product may cause the occurrence of allergic reaction

**11.2. Toxic doses and concentrations:**

- Not defined

**11.3. Effects of acute exposure at people (for the product):**

**Inhalation:**

In high concentrations the product vapours may be irritant to respiratory tract and eye mucosa (they cause lacrimation and eye pain, conjunctival congestion, cough, throat and nose burning)

**Skin contact:**

Repeated exposure may cause skin dryness or cracking. The product may cause sensitisation by skin contact. Persons with allergic predispositions should be particularly careful.

**Eye contact:**

Vapours may cause eye mucosa irritation manifesting itself with reddening, lacrimation and pain.

It causes eye irritation in case of direct contact.

**Swallowing:**

Irritation of mucosa of alimentary system, stomachaches, nausea, vomiting, diarrhoea (possibility of burning crotch area) and symptoms connected with the action of the substance on the system.

**12. ECOLOGICAL INFORMATION**

**12.1. Hazards for the environment.**

- The product is not classified as hazardous to the environment, however entering large amounts of the product to water may have a negative influence on aquatic organisms.
- All surfactants(detergents) contained in the product meet the requirements concerning biodegradability pursuant to the Regulation (EC) no. 648/2004 of the European Parliament and the Council of Europe of 31st March 2004 on detergents.
- Avoid release to the environment.
- Refer to special instructions/safety data sheets

**12.2. Ecotoxic action:**

- Not defined

**12.3. Biodegradability (for the product):**

- Chemical Demand for Oxygen 390 mg O<sub>2</sub>/g
- Diluted product causes hazard to chemical process taking place in sewage treatment plants to a small extent
- contents of chemically bound or complexed ions of heavy metals: does not contain

The product is subject to biological degradation. Negative ecological effect are not predicted is the product is handled properly.

**12.4. Bioaccumulation:**

The product does not demonstrate the ability to accumulate. Ecological problems should not be expected in case of using the product with due care.

No data available on the mobility of the described substance in various ecosystems, its ability for bioconcentration, biodegradation or ecotoxicity. Do not let any material enter surface water, ground water and soil.

Proceed pursuant to the regulations. Do not let the product enter natural environment. Properly used product does not cause danger to the environment. Do not let any material enter surface water, ground water and soil. Do not dispose in the sewage system. It is forbidden to dispose of the product to sewers or water courses

**13. DISPOSAL CONSIDERATIONS**

**13.1. Waste material proceedings:**

Do not dispose in the sewage system. Do not let any material enter surface water, ground water and soil.

Small quantities (at the consumer's) treat as household waste.

Do not dispose large quantities of waste material in the sewage system. Utilize in authorized incineration plants or waste utilization plants, pursuant to the regulations in force (see item 15)

Waste code:	Waste kind
-------------	------------

140603	Other solvents and solvent mixtures.
--------	--------------------------------------

**13.2. Package contents:**

waste kind: Other unmentioned waste

Waste code: 07 06 99

**13.3. Package:**

- waste kind            Packages made of plastics
- Waste code:        15 01 02

**14. TRANSPORT INFORMATION****14.1. Road transport:**

The product does not cause danger in the light of road transport regulations.

**15. REGULATORY REGULATION**

Classification and marking of the substance was given pursuant to the Act on chemical substances and preparations dated 11<sup>th</sup> January 2001, on the basis of the data delivered by the manufacturer and on the basis of general knowledge on the substances.

**Package marking:****Product contains:**

- cytronelol. The product may cause the occurrence of allergic reaction

**Warning marks:****Xi    Irritating product****Hazard phrases:**

R36/37/38        Irritates eyes, respiratory tract and skin.

**Phrases indicating conditions of safe usage:**

- S2                    Keep out of the reach of children.
- S23                  Do not breathe dispersed liquid
- S24/25              Avoid contact with skin and eyes.
- S26                  Immediately flush contaminated eyes with plenty of water and seek medical advice
- S37/39              Wear adequate safety gloves and glasses or face protection.
- S45                  In case of emergency or if you feel bad, seek medical advice immediately and show the label if possible.

**Special remarks:**

If the product is offered to detail sale for consumers, also:

- the package should have touch-perceptible warning on hazard (Dz. U. No. 128 item 1348 of 2004).

**Regulations in force:**

- 1 Regulation (EC) no. 1907/2006 of the European Parliament and European Council dated 18<sup>th</sup> December 2006 on the registration, assessment, granting permits and applied restrictions in the scope of chemicals (REACH) the establishment of the European Chemicals Agency amending directive 1999/45/EC and repealing the regulation of the Council (EEC) no. 793/93 and the regulation of the Commission (EC) no. 1488/94, as well as the Council directive 76/769/EEC and the Commission's directive 91/155/ EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (correction Dz. Urz. Of the European Union, L 396/1)
- 2 Act dated 11<sup>th</sup> January 2001 on chemical substances and preparations (Dz. U. No 11 item 84 dated 2001) with subsequent amendments)
- 3 Act dated 27<sup>th</sup> April 2001 on waste (Dz. U. No 62 item 628 dated 2001) together with the Regulation of the Minister of the Environment (Dz. U. No 152 item 1735-1737 dated 2001)
- 4 Act dated 11<sup>th</sup> May 2001 on package and package waste (Dz. U. No. 63, item 638 dated 2001) with subsequent amendments
- 5 Proclamation of the Marshal of the Parliament of the Republic of Poland dated 4th July 2006 on announcing single text of the act - Environment Protection Law (Dz. U. No 129 item 902 dated 2006)
- 6 Act dated 28<sup>th</sup> October 2002 on land transport of hazardous materials (Dz. U. No 199 item 1671 dated 2001) with subsequent amendments
- 7 The Regulation of the Minister of Health dated 30<sup>th</sup> April 2004 on dangerous substances and chemical preparations whose packages shall have closures protecting against opening by children and warning label recognized with fingers. (Dz. U. No. 128, item 1348 dated 2004).
- 8 Regulation of Minister of Health of 2<sup>nd</sup> September 2003 on marking of dangerous substance and preparation packages (Dz. U. No 173 item 1679 dated 2003) with subsequent amendments of 9<sup>th</sup> November 2004 (Dz. U. No 260 item 2595 dated 2004) .) with the consideration of the Commission Directive 2006/8/EC of 23<sup>rd</sup> January 2006
- 9 Regulation of Minister of Health of 2<sup>nd</sup> September 2003 on criteria and classification method for chemical substances and preparations (Dz. U. No 171 item 1666 dated 2003) with the amendment of 4<sup>th</sup> July 2007, (Dz. U. No 174 item 1222 )
- 10 Regulation of the Minister of Environment dated 27<sup>th</sup> September 2001 on waste catalogue (Dz. U. 2001 No 215 item 1206)
- 11 Regulation of Minister of Health dated 28th September 2005 on the list of dangerous substances with their classification and marking (Dz.U. No. 201, item 1674 dated 2005 )
- 12 Regulation of the Minister of Labour and Social Policy dated 29<sup>th</sup> November 2002 on the highest allowed concentrations and intensity of agents harmful to health in the work environment (Dz. U. No. 217, item 1833 dated 2002). with the amendment (Dz. U. No 212 item 1769 dated 2005 . and Dz. U. No 161 item 1142 of 2007)
- 13 Government announcement dated 26<sup>th</sup> July 2005 on the annexes A and B of the European Agreement concerning international transport of hazardous materials, coming into force (ADR), prepared in Geneva dated 30<sup>th</sup> September 1957 (Dz. U. No. 178, item 1481 dated 2005)

EC L 047 dated 18th February 2005) and the Regulation (EC) and the Council No. 111/2005 dated 22<sup>nd</sup> December 2004 defining the principles of supervising the trade with drugs precursors between the Community and the third countries (Dz. Urz. EC L 22 dated 26th January 2005, page 1; Dz. Urz. EC Polish special issue dated 2005, volume 48, page 1).

## 16. OTHER INFORMATION

### The meaning of symbols and the contents of R phrases included in item 3:

Xn	Harmful product
C	Caustic product
Xi	Irritating product
N	Product hazardous for the environment
R20/21/22	Harmful by inhalation, in contact with skin and when swallowed.
R22	Harmful if swallowed
R34	Causes burns
R36	Irritating to eyes
R36/38	Irritates eyes and skin.
R38	Irritating action on skin
R41	Risk of serious damage to eyes.
R43	May cause sensation by skin contact
R51	The product is toxic to aquatic organisms
R53	The product may cause long-term adverse effects in the aquatic environment.

Employees' medical tests and tests and measurements of the harmful factors to be made pursuant to the valid regulations. This material safety data sheet was prepared pursuant to the data coming from the MSDS provided by the manufacturer. The above information was prepared on the basis of current knowledge and experiences. It does not guarantee of the property of the product or quality specification and cannot be the basis for the complaint.

The product should be transported, stored and applied pursuant to the regulations in force and good practice and hygiene of work.

The manufacturer does not bear responsibility for any losses arising directly or indirectly from the application of the above interpretation of the regulations or instructions..

The presented information cannot be applied for the mixtures of the product with other substances. The use of information given and the application of the product are not controlled by the manufacturer so it is the user's obligation to create adequate conditions for safe handling the product.

MSDS was prepared by **CHEM-NET S.C. 91-716 Łódź, Nowopolska 9A** [www.chem-net.info](http://www.chem-net.info), at the order of **AUTO – PLAST PRODUKT Sp. z o. o.** MSDS was prepared pursuant to domestic regulations currently in force. The preparation of this MSDS was based on current knowledge and experiences.
