- **High density protective liquid for spray booths**
APP PK 900 - APP No. 070903 / 070904

APP PK 900 is a transparent coat that ensures protection of spray booth walls against dust circulation. Easily washable with water. Product may be applied on coated, painted surfaces, glass, rubber, sealants and plastic. If not diluted product may be applied with a brush or roller. After diluting apply with a spray gun.

Advantages:

- High density that enables diluting up to 20% with demineralized water.
- High viscosity that ensures effective protection of spray booth.
- Does not provide for change of light-source colour in spray booth.
- High output: 8-10 m²/l.
