• APP Disposable Nitrile Gloves (M / L / XL)

APP No. 090637 / 090638 / 090639

APP nitrile gloves provide superior resistance to a wide range of solvents and hazardous materials and offer excellent comfort. Disposable, 100% nitrile, powder-free gloves provide strong barrier and resists chemicals, are perfect for individuals allergic to rubber, reduce risk of food cross-contamination caused by cornstarch used as powder.

Latex free, silicone free, wax free, plasticizer free, fragrance free, non-sterile reversible APP nitrile gloves.

Advantages:

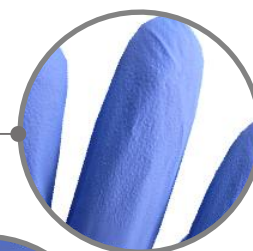

- 1 Additional nitrile coat ensures comfortable fit and improves dexterity
- 2 Folded cuff ensures additional protection of wrist, fitting and strength.
- Three times improved resistance to abrasion, puncture comparison to latex of PCV disposable gloves
- Increased resistance to tear:
 - Prior use: 16 Mpa (16N/mm²)
 - Most available gloves have 14 Mpa (14N/mm²)

Application:

- Automotive industry (garages, car paint shops)
- Transport
- Construction industry
- Chemical industry
- Electronic and precision industry
- Food processing and catering
- Gardening
- Pharmaceutical companies (laboratories)
- Health care services

Perforated package to facilitate use
