■ APP Cleaning Gun

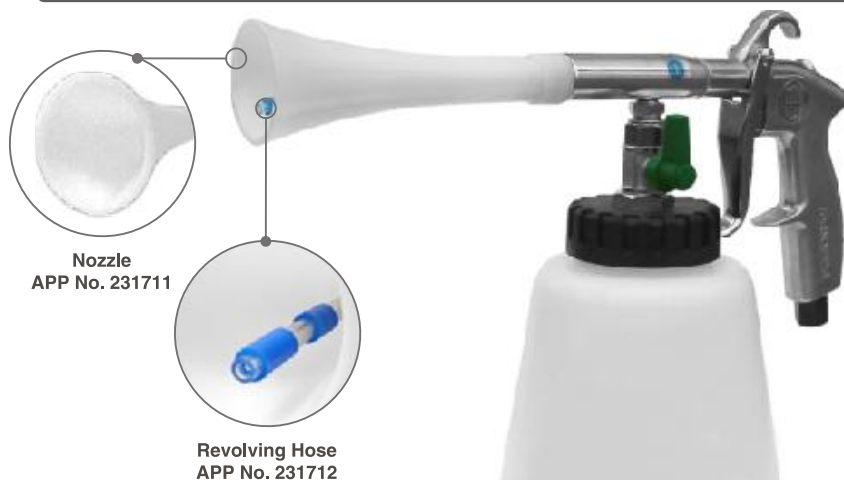

APP No. 231710

The gun specially designed for effective wet cleaning of any kind of dirt of a car body and interior such as **air outlets, air conditioning, elements of mirror and made of material, seats and upholstery, rugs and any kind of dirt that is difficult to remove.**

Its specially shaped nozzle with a rotating core produces, due to compressed air, foamy cleaning solution that cleans all elements by making them moisture to a little extent!

APP Cleaning Gun is a highly effective device, consumes minimal amount of water and cleaning agents. It is also so effective that there is no need to use any other aggressive agents, which are harmful to environment and health.

APP Cleaning Gun cleans all difficult to reach places, cracks, where a traditional sponge, cloth, brush or paintbrush cannot get to!!!
