● APP MIG 245 Welder with Two Holders

APP No. 350086

Three phase welder **APP MIG 245** fitted with two holders that enable welding different type materials at the same time.

Technical Data of APP MIG 245 Welder:

- High performance in case of welding of steel, stainless steel, aluminium and zinc plated sheet metals
- Welding program wide scope,
- Automatically saves the last program for each holder,
- Microprocessor control,
- Possible installation of Push Pull holder for welding of aluminium, with wire of 0.6-1.0mm diameter,
- Adjustment of spot welding parameters,
- Soft start.

Welder is fitted with:

- 2 EURO connectors for two holders,
- 2 locations for spools of any type wire,
- 2 electric valves for operation with two gas cylinders.

Technical Data

APP No.	350086
Power Supply	3x230V 50/60Hz
Installed Power	4,6 kW
Max. Output Power	6,0 kW
Current Range	15A ÷ 200A
Operating Cycle Current	200A 35% - 160A 60%
Electronic Adjustment	ELECTRONIC
Welding Wire Type and Diameter	0,6/0,8(1) Fe - 0,6/0,8/1 Al- 0,6/0,8(1) INOX - 0,8 CuSi3%
Insulation Class	21 °C
Adapted to Use Where High Risk of Electric Shock	Yes
Weight	80 kg
Dimensions	506x897x872 mm
