- **Antistatic air pipe with quick couplings - EPDM, 9x16mm, 10m**
APP No. 389030

High quality antistatic pipe made from EPDM special membrane that ensures total flexibility and higher resistance to bending. The hose features with resistance to stress caused by warping, twisting and pulling. Hose is provided with an inner smooth coat made from black EPDM and reinforced with synthetic fibres. Outer smooth coat is provided with blue EPDM.

The hose is perfect for use with spray guns, as well as work in paint cabins and preparatory spaces.

The hose is fitted with innovative quick couplings that enables easy fixing of spray guns. Quick couplings ensure total tightness and high performance parameters (<106W/m) in case of connection to other devices.

Technical Data	
APP No.	389030
Inner/Outer diameter in mm	9 x 16
Quick couplings number	1
Length m	10
Pressure 20°C	12 bar
Max. temperature	+ 60°C
