

# NEW !!!

## ■ MULTI HOLE disc

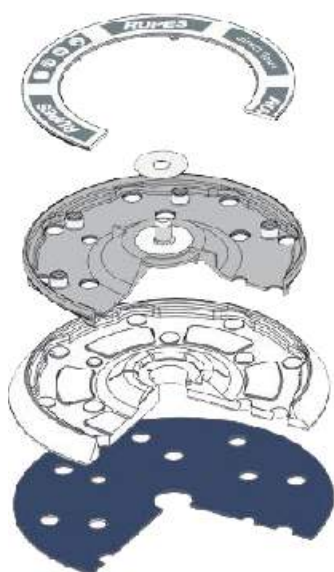

In 2010 RUPES developed a completely new disc - MULTI HOLE with 49 holes which is the most effective disc of all available.

RUPES MULTI HOLE disc has reduced weight, increased stability and lowered centre of gravity. Thanks to their advanced construction, these disc are compatible with all abrasive paper brands available in the market. Multihole construction guarantees excellent dust removal working with wide range of abrasive papers from 6 and 15 hole papers to multi-hole ones. Completely new Velcro construction provides secure paper holding even while very demanding grinding works.

### MULTI HOLE discs provide:

- Best distribution and flow of air on the whole disc surface - due to proper holes size and arrangement
- Even better collection of grinding dust from disc edge which can be the disc part producing it the most effectively - due to channelled air flow
- Longer disc life - due to specially formed construction and new Velcro type.

Available types of MULTI HOLE disc fixing: M8, FESTO and 5/16 BR, TA, RA.

APP No.	Ø mm	Fixing	Number of holes	Hardness	Pack
60981.340	150	Velcro, M8, FESTO	49 MULTI HOLE	Hard	1 piece
60981.350	150	Velcro, M8, FESTO	49 MULTI HOLE	Soft	1 piece
60981.440	150	Velcro, 5/16, BR, TA, RA	49 MULTI HOLE	Hard	1 piece
60981.450	150	Velcro, 5/16, BR, TA, RA	49 MULTI HOLE	Soft	1 piece
