• ANEST IWATA 10m Antistatic Hose APP Nr 389030

Hose of special design ensuring improved protection and distribution of electric charge accumulated due to compressed pressure use. It is perfect for use in paint shops and workshops. Thanks to 9 mm diameter it perfectly cooperates with HVLP guns. Rubber reinforced PVC membrane hose features with improved flexural strength and minimized toxicity. In addition it is light and easy to handle, with smooth inner surface to ensure optimum air flow.

The below chart confirms that Anest IWATA antistatic hose features with the highest electrostatic charge distribution factor compared to hoses available on the market offered by other manufacturers (the higher factor the better antistatic properties).

| Technical data | |
|-------------------------|--------------------|
| APP No. | 389030 |
| Max. operating pressure | 20 Bar (290psi) |
| Working Temp. Scope | from -20°C to+80°C |
